

MG - GROUP - 4L

The last month has been focused on a decent detox and commitment to the spiritual practice.

Not to dissociate from other experiences as March was definitely a roller coaster.

The VIP room, game of "power", where all is fake and real at the same time.

I really enjoyed the time with my young brothers -

I recognize myself in them, especially the sincere gaze.

There is however a frequency shift I am not sure how to approach yet - or maybe, I am just pretending I do not know.

The reality is that I wish to be there if they need me; however, I definitely lost the 'need' or will to listen to broken beats toxic environments, a layer of reality I have enjoyed, more ego? than good sometimes. Even tho, it is also child play.

Let's remain grounded, no point looking from above - Much love to you brothers.
