

Shinsei
Tough to define

260527

Shinsei is hard to define,
probably, because it can't :),
and also probably to my lack
of concentration, or simply
recent practice

I realise.

It is about the light
purifying intention

energy and abstraction,
pure sensation.

P.S.: be aware of that will
of purification? Is it revealing
the real essence?

How far can we go without
labels?
